

HOW TO SELECT A UVC DISINFECTION SYSTEM

Requirement #3:

Proof of Compliance

The only way to prove that UVC treatment was performed properly is to have a record of the actual job data, including UVC doses delivered.

The R-D™ Rapid Disinfector™ automatically captures this data and provides real-time, cloud-based reporting through industry leading IN-TRAK™ tracking software.

Requirement #1:

UVC Dose
Measurement
is Essential

Requirement #2:

System Must Have
Steady-State UVC
Lamps

What's YOUR most important requirement?
